JVHAW4	4" Vent Hood w/ mounting flange, pipe and collar

Performance Data

for louvered vent hood w/ mounting flange

Hood

- Calcium filled Polypropylene
- Melting point: 325 °F / 163 C approx.
- UV Inhibitor added

Pipe

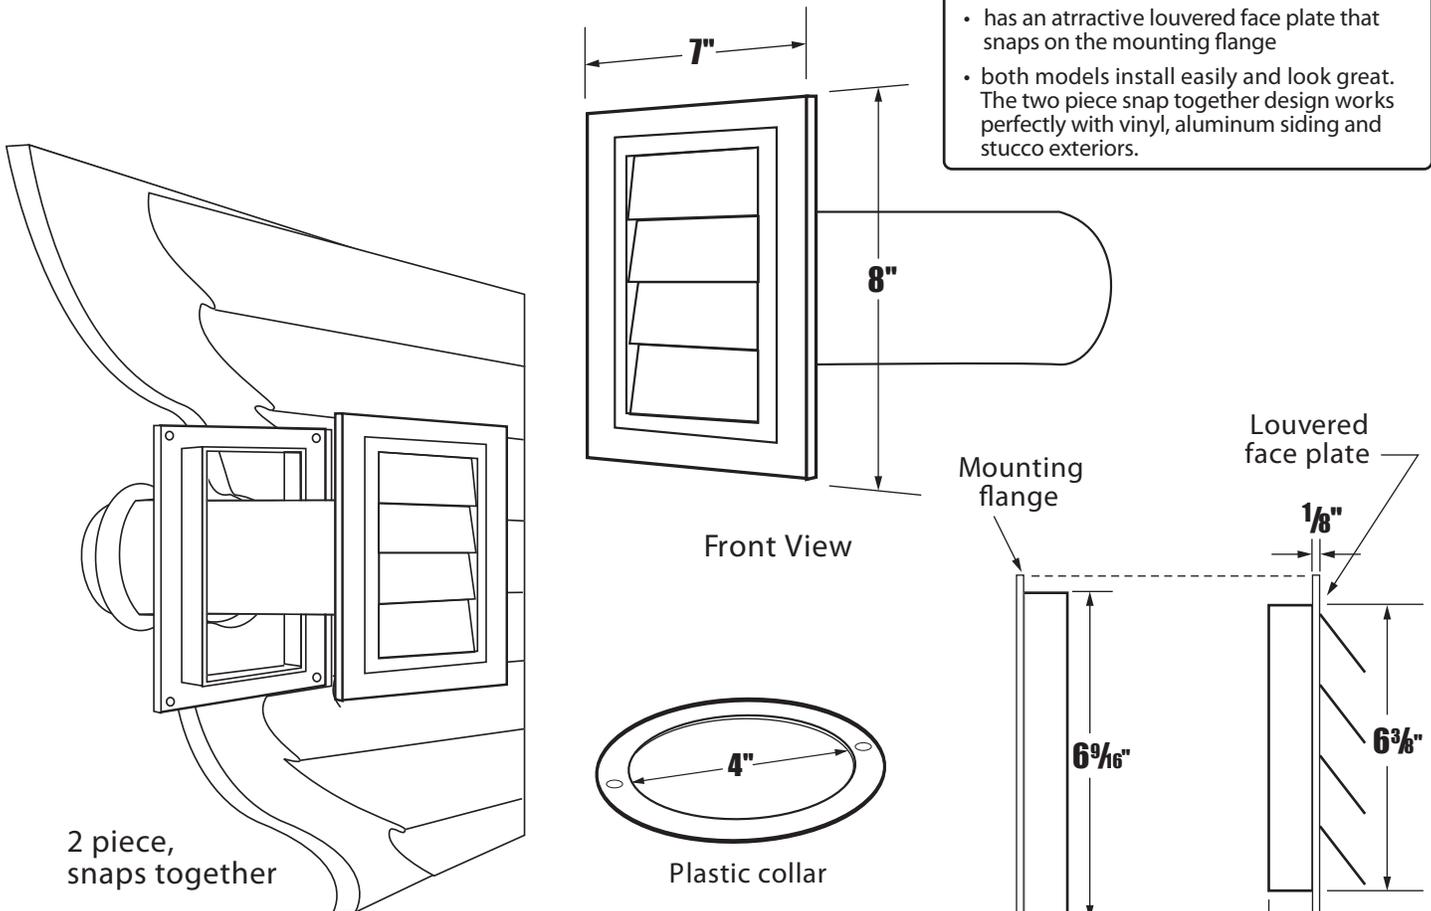

- Aluminum

Collar

- styrene

General Information

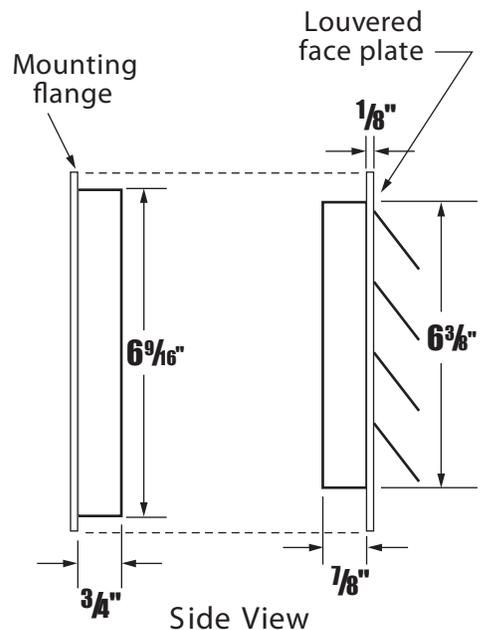

- has 4" (10.1cm) diameter opening
- is made of strong molded plastic
- is a simple two piece installation
- has a mounting flange with several pre-cut mounting holes
- has an attractive louvered face plate that snaps on the mounting flange
- both models install easily and look great. The two piece snap together design works perfectly with vinyl, aluminum siding and stucco exteriors.

2 piece,
snaps together
